

SOLIDEAL® INDUSTRIAL PNEUMATICS

Solideal, designers and manufacturers
of the worlds finest, most complete range
of heavy-duty Industrial pneumatic tyres.

HAULER® LT

Often copied never bettered.

The original WIDE WALL industrial tyre and still the best built using the latest construction techniques and tried and tested compounds, tyre cords and natural rubber. Innovative LT tread design, flat profile and sidewall protection ensure that this tyre remains the industries most durable and versatile tyre, optimum performance and life in the most arduous of applications. Available in 4 innovative tread designs, LT (Lift Truck), SM (Smooth), HATR (Half Track), 1L (One Lug).

HAULER® HD PORTMASTER™

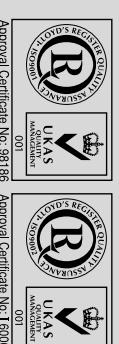

The longest lasting bias tyre available today, specifically designed for unusually rapid wear applications on concrete and tarmac. The HD (Heavy Duty) delivers increased life, larger footprint, increased stability, greater puncture resistance and an industry best 75/25 Lug to void ratio, the HD really does offer the very best life time of any bias tyre available on the market today.

SOLIDEAL® ED

Manufactured using many of the same up to the minute construction techniques, compounds, innovations and properties as the top of the range Hauler LT and HD. The ED (Extra Deep) represents a real value for money alternative.

SOLIDEAL RIB / ZZ RIB

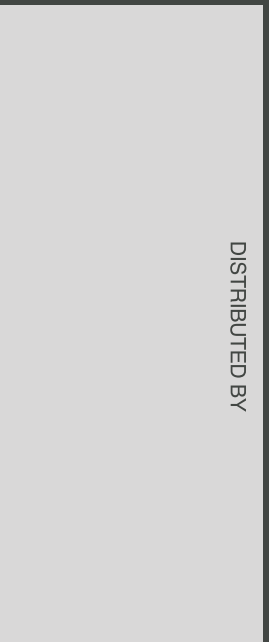

Designed and manufactured specifically for "GROUND SUPPORT" applications, RIB & ZZ RIB offer optimum performance, with low rolling resistance zero vibration, self-alignment, steer-ability and cool running characteristics.

"NATURAL RUBBER COMPOUNDS FOR GREATER TEAR & CHUNK RESISTANCE"
