

SOLIDEAL[®]

RESILIENTS

Solideal, designers and manufacturers of the worlds finest, most complete range of heavy-duty resilient tyres.

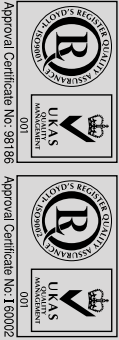

MAGNUM:
MAGNUM, the ultimate resilient tyre, designed to meet the most exacting of requirements and built using the latest construction techniques, multi layered natural rubber construction, innovative new longer lasting compounds, innovative tread design, flat profile and sidewall profiling ensure that the Magnum remains the industries most durable, versatile and long lasting resilient tyre.
Optimum performance and life in the most arduous of applications.

SOLIDEAL HT:
Designed to meet the demands and requirements of today's market, built using the latest construction techniques, multi layered natural rubber construction, innovative new longer lasting compounds, innovative tread design, unique HT profile and sidewall profiling ensure that the SOLIDEAL HT remains the world's most popular resilient tyre.

SAFETYMASTER[™] & SAFETYMASTER L.A.R[™]:
The Solideal SAFETYMASTER & SAFETY MASTER L.A.R, built using up to the minute construction techniques, compounds & design innovations, the SAFETYMASTER & SAFETYMASTER L.A.R are designed specifically for skid steer & access lift applications. With aggressive tread design, low deflection and long lifetime this innovative tyre delivers all that is required of it.

ECOMATIC:
The foundation of the Solideal range of resilient tyres, the ECOMATIC delivers excellent performance through its wide heavy duty tread design balanced with superb cost effectiveness.
The ECOMATIC really is the original no frills no nonsense tyre.
